

**Request for Proposal (RFP)  
Technical Training Program**

**Environmental Measurement Symposium  
San Antonio, Texas  
August 2009**

**BACKGROUND**

The NELAC Institute (TNI) is a not-for-profit scientific voluntary consensus organization engaged in research and development whose mission is to foster the generation of environmental data of known and documented quality.

In cooperation with the US Environmental Protection Agency (EPA), TNI hosts an annual meeting with technical presentations related to environmental monitoring issues called the National Environmental Monitoring Conference (NEMC). Since 2007, NEMC has been combined with TNI's Forum on Laboratory Accreditation under the umbrella of the Environmental Measurement Symposium to allow many attendees to minimize travel costs. The Forum consists of sessions related to laboratory accreditation.

TNI is interested in contracting with organizations to provide training in the general areas of environmental measurement or laboratory accreditation. Training should impart knowledge with the goal that the person being trained will achieve some level of self-sufficiency with regard to the subject matter.

Organizations may propose to provide the training for only one course (or workshop), or for multiple courses. The courses will be offered in conjunction with the Environmental Measurement Symposium in San Antonio, Texas at the Hyatt Regency San Antonio.

**TRAINING COURSES**

TNI is seeking organizations to provide formal training courses that can be any where from a half-day to a day and a half in length. In preparing the schedule for the 2009 Symposium, the conference organizers have identified three potential days where formal training courses can be offered. These days are Wednesday, August 12, Friday afternoon, August 14, or Saturday, August 15. A General Session will be held on Wednesday, August 12 and the conference ends at noon on Friday, August 14.

**WORKSHOPS**

For 2009, the conference organizers are considering an additional opportunity for training. This new approach would be informal workshops held on Tuesday, August 11 or Thursday, August 13 evening. As currently envisioned, these workshops would be around 2 hours in length and TNI would furnish a light meal, such as pizza, salad and sodas.
